Hi BHADRI!

Great news - I've reviewed your Java/Python SWE application and would love to welcome you to Shipd! Let's schedule a quick 15-minute onboarding call where I'll set up your Shipd II account and help you get started with paid contributions + answer all your questions.

You can book a time here: <https://calendly.com/james-datacurve/shipd-invite-only-onboarding-nov-9-11>

I highly, highly recommend joining a session with other attendees. You'll get to learn from others' questions + help others with yours 🙌

Can't wait to speak with you!

James
