Hey BHADRI!

Reaching out following your Hackerrank submission. Congrats on moving on to the last step!

Before we bring you on to contribute to problem-solving for \$25-35 USD per question, we just have an onboarding meeting that will go over the guidelines and workflow for how this quest will work.

This meeting is very important! If you don't know about Shipd, every contribution MUST follow a specific guideline and requirements, otherwise it will not be valid for payouts. And so, I'll be going over everything you need to know to get all your questions passing these requirements in the call.

Could you please find a time here that works for you? <https://calendly.com/james-datacurve/shipd-dsa-invite-only> **It would be amazing if you could join a meeting that has other people!**

Lastly, I just wanted to ask if you could confirm that you're available for 20 the rest of the week to work on this? Are you interested to start contributing today?

Thanks a lot BHADRI! Excited to talk soon.

James
